Hand Cleaner

HC Pink

Hand Scrubber

When Vantex decided to create a hand cleaner with scrubbing particles the first consideration was to maintain the highest level of quality. The polyethylene scrubbers added to the formulation gives consistent particle size that blends evenly and thoroughly in the mixing process. The polyethylene particle is also round and smooth, unlike the rough jagged edges of pumice or sand and will not tear or irritate skin. The scrubbing process is designed to release and remove embedded heavy grease, grime and tough stains.

HC Blue

Smooth Citrus Lotion

Contains d-Limonene, nature's natural solvent. It provides greater cleaning ability plus the fresh scent of citrus. The lanolin and skin care emollients help heal rough dry overused hands. Conditions skin without the greasy feeling and strong petroleum odor normally associated with similar hand cleaning products.
