DUPLEX PRIMARY WIRE

END VIEW

Duplex Primary Wire is made with two plastic insulated primary wires laid parallel and covered with a high quality plastic jacket, oblong in shape. The jacket provides a compact cable and protects the insulated conductors against weather and acid conditions. Each conductor is color coded.

SIZE	PART NUMBER
16 GAUGE 2 CONDUCTOR	DP16
14 GAUGE 2 CONDUCTOR	DP14
12 GAUGE 2 CONDUCTOR	DP12
10 GAUGE 2 CONDUCTOR	DP10

BATTERY CABLE

Copper stranded conductor with a smooth vinyl plastic insulation resistant to abrasion, weather, oil and acids.
